

GLEBE HARBOR – CABIN POINT ASSOCIATION

BOARD OF DIRECTOR CANDIDATES

Nominees of the Board in Alphabetical Order

Jeanne O. Axtell: My name is Jeanne O. Axtell and I am a candidate for the GHCP Association Board of Directors. My husband, Buddy, and I have been property owners in the community since December 2005, living initially in Cabin Point and now in Glebe Harbor. In 2012, we relocated permanently from Northern Virginia. I served on the GHCP Association Board of Directors for eight years, serving as President for the past seven years.

To the Board, I bring executive, management, and organizational skills from nearly 35 years with the U. S. Department of Agriculture, Food Safety and Inspection Service. I retired in 2005 as a member of the Senior Executive Service, specializing in areas related to regulatory policy, program and administrative management, and resource management. Throughout my professional career and in retirement, I have maintained close affiliation with my home churches, actively serving in various lay leadership positions, including Lay Leader and Co-Chair of Church Council, the governing body of the local church. I am a Certified Lay Servant in the Rappahannock River District of the United Methodist Church.

Education: Interdisciplinary Field Major in Humanities, University of California, Berkeley; and Master's in Public Administration from the George Washington University.

Our community has beautiful natural resources, recreational facilities, and amenities that benefit all Glebe Harbor and Cabin Point property owners and residents. Since 2016, the GHCP Association has been the day-to-day manager of the recreational facilities and amenities of the GH-CP Sanitary District. Today, the Association Board continues its responsibilities for management and operations and works collaboratively with the County in planning and allocating resources to maintain and enhance recreational facilities for use by property owners. The Association Board must also plan for conservation of the community's unique waterways, shoreline areas, and recreational amenities for the benefit of today's property owners and those who choose to live here in the future. This requires broader input from all property owners in the community, the Association Board, the County Administrator, and the County Board of Supervisors. I welcome the opportunity to continue serving the community on the Board.
